- Selected among the **Top 50 teams** in college-level screening for **Smart India Hackathon (SIH)**.
- Maintained a **CGPA of 8.02** in Computer Science & Engineering.
- Secured **93.8%** in CBSE Class XII and **94.6%** in CBSE Class X.

Key Projects

- Smart Healthcare Monitoring System** (Ongoing)
Tech Stack: Python, JavaScript, MongoDB, APIs, Power BI
 - Developed a healthcare monitoring platform with backend workflows, API integration, and database management.
 - Performed data validation and analysis using Python and structured datasets.
 - Built dashboards to visualize healthcare metrics and monitoring data.
 - Collaborated to improve scalability and reliability of the system.
 - GitHub:** github.com/SwarnaTripathi/smart-healthcare-monitoring
- ChronoSync – Workflow & Task Monitoring Application** (Hackathon Project - 2025)
Tech Stack: JavaScript, React.js, Node.js, SQL, REST APIs
 - Developed backend workflows and integrated APIs for application communication.
 - Managed database operations and improved workflow reliability.
 - Collaborated with teammates using Git and GitHub during a hackathon development cycle.
 - GitHub:** github.com/lokeshbhai007/hh310

Technical Skills

- Languages:** Java, Python, JavaScript, SQL
- Web Technologies:** HTML5, CSS3, React.js, Node.js, REST APIs
- Databases:** MySQL, MongoDB
- Data & Visualization:** Power BI, MS Excel, EDA
- Concepts:** OOP, DSA, DBMS, OS, API Integration
- Tools:** Git, GitHub, VS Code

Positions of Responsibility

- Fest Volunteer & Organising Team Member**
 - Assisted in planning and execution of club and college-level events.
 - Collaborated with teams to manage logistics and event operations.
 - Worked in fast-paced team environments during college events.

Extra-Curricular Activities

- Active member of Drama and Literature Club; won multiple inter-college drama competitions.
- Participated in hackathons and collaborative technical events.
- Featured as a voice actor on Mirchi 98.3 Red FM with recorded audio selected for future broadcasting.
